NAV: 154.606,3208 RON

FIA Hermes is an alternative investment fund (FIA) with a diversified investment policy which raises publicly financial resources and it has unlimited operating life. The fund invests mostly in financial instruments listed on Bucharest Stock Exchange or on other stock exchanges from UE or G7 and/or OCDE and also on financial derivatives products on Romanian and international markets. The financial derivatives instruments are used either for hedging purposes or investments. The fund is allowed to invest temporary liquidity in bank deposits, treasury bills or sovereign bonds. The performance of the fund is computed based on the investment products held in its portfolio. The selection of the investments is based on the assessment of growth potential and associated risk.

Performance is calculated in RON.

	Inception date	Currency	Degree of risk	Investment period	VaR ratio* max Jan 2022	Sharpe ratio** 2022
FII Hermes	May 2011	RON	high	60 months	2,98%	0,10

*VaR measures the amount of potential loss that could happen over a given period of time with a certain degree of confidence (95%).

**Sharpe ratio measures the excess return per unit of volatility compared to the risk-free rate.
